CMD's Message

Commenting on the performance, **Mr. Vikram Somany, Chairman & Managing Director**, said,

“During Q2FY21, Cera was able to capitalize on the strong recovery in demand from end consumers. Cera’s performance during the quarter was driven by the core and most profitable businesses of sanitaryware and faucetware, from our well-established tier 3 markets. Customers are willing to spend on products offering high quality and reliability as they see value over the life cycle of the product. Further, Cera has witnessed heightened awareness and demand for our range of hands-free and contact-less products offerings.”

Initiatives such as digitization, just in time inventory for trade partners have led to shorter billing cycles further improving the working capital cycle. Cost optimization efforts continue at all levels, including the shopfloor where production based targets are being realigned. Past efforts at developing a reliable vendor base by providing best in class technology, process excellence and knowhow has enabled the development of on-tap manufacturing capacity.

As an industry leader, Cera is well placed to benefit from the Government's impetus towards import substitution and rising customer inclination towards locally manufactured products. Looking ahead, we believe that our comprehensive offerings, manufacturing excellence and wide network coupled with a robust financial position will not only enable us to navigate the present uncertainty but empowers the Company to deliver sustainable growth."
