CERA
Tiles

**A NAME OF EXCELLENCE.
A BRAND OF TRUST.**

We are proud to be recognized by
Superbrands India 2023.

AFFILIATIONS

ONE SURFACE.

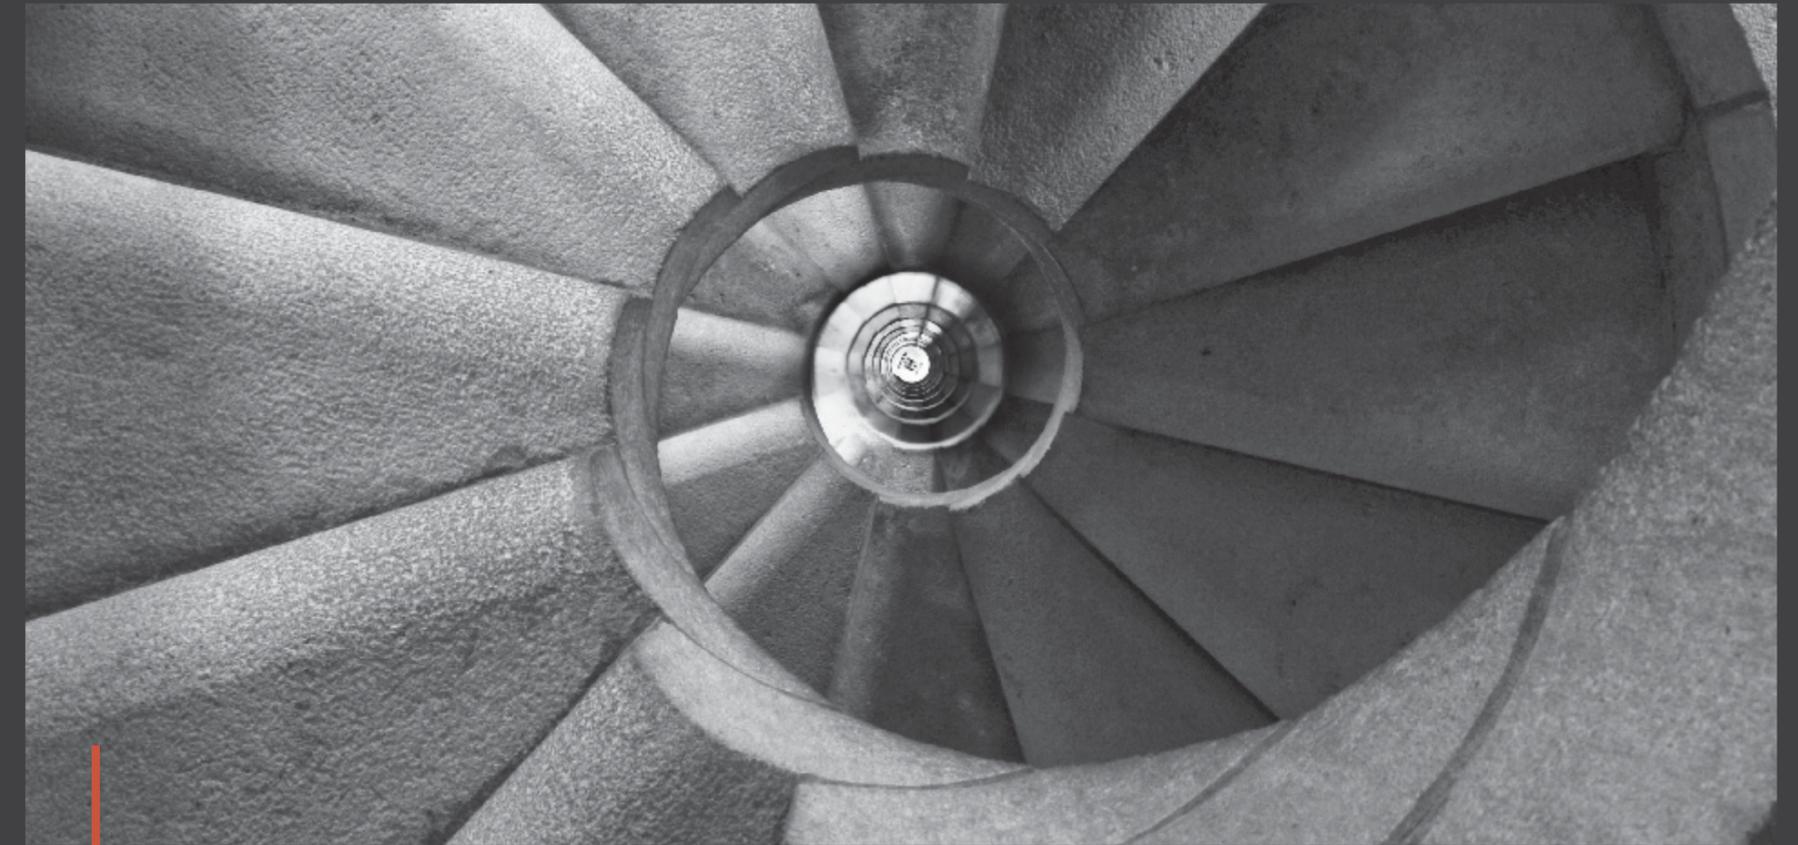

The CERA GVT Collection is no ordinary set of tiles. Inside each box of these tiles, lies an opportunity - to think out of the box. It's one surface, with the talent of several.

MANY SHADES.

The only predictable aspect of this collection is that it's unpredictable - just like how designs in nature never cease to enchant us, surprise us. Warm grains of wood? Done. Charm of Natural Stone? Done. The stately grace of Marbles? Done. The CERA GVT collection muses upon nature, and surpasses it in performances.

ENDLESS POSSIBILITIES.

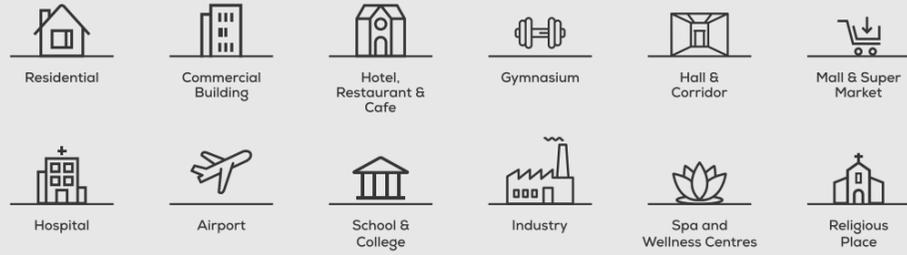

It's a collection that talks about the freedom of choice and truly means it. Picture 3 different sizes - 60x120, 20x120 and 60x60 cm. Add to this there are 6 finishes and over 400 designs to choose from. It's collection designed to overwhelm the modern designer, with everything.

CERA COLLECTION OF GLAZED VITRIFIED TILES

As Varied As Life

Application Area

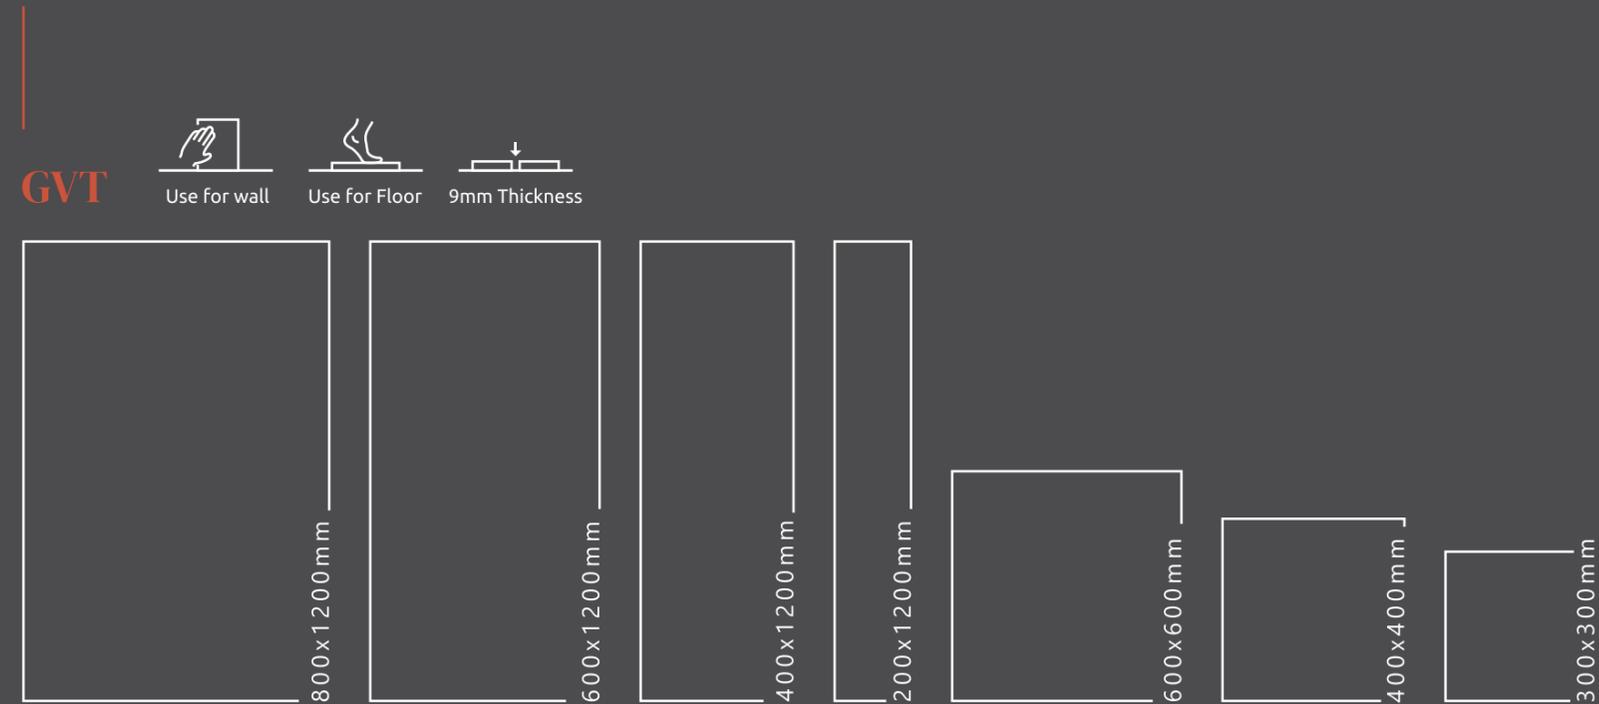

Technical Specification

Inspired from the beauty and natural stone around the world.

The Indian consumer is becoming more and more design & decor conscious by the day. A home is no more a necessity but it is a reflection of one's status, personality & taste. Therefore, the demand for premium quality vitrified tiles with beautiful designs and perfect craftsmanship has increased by leaps & bounds. CERA presents a unique collection of Glazed Vitrified

Tiles to fulfill the ever-expanding needs and expectations of the Indian consumer. CERA range of Glazed Vitrified Tiles in an extensive array of exclusive designs in the all sizes available through a wide distribution network.

FOLLOW THE INSTRUCTION FOR RECTANGULAR/SQUIRE CUTTING.

Ensure that at least 5 mm space is left between the edge of the slab and the point where the hole has to be made. The radius of the corners must be a minimum of 3 mm.

Angles cut without necessary radius length create a stress point, whereas the large radius maintains the structural resistance. Make sure to never leave the corners with 90° angle cuts.

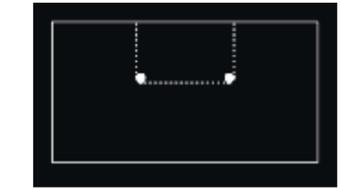

Use a drill bit 3 to 5 mm to drill corners of the cut-out.

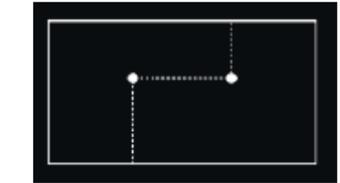

Use a bridge saw running to cut from one hole to the next. Ensure the bridge saw is running at minimum speed to decrease the stress on the slab.

OTHER INSTRUCTINS

When cutting a “U” shaped piece, Mark and drill relief holes where the cut lines intersect, always making the shortest cut first.

When cutting an “L” counter top, drill relief holes where the cut lines intersect, always making the shortest cut first

FOLLOW THE INSTRUCTION FOR ROUND CUTTING.

Use the sticky tape and pen to mark a circle.

Start at an angle of 45 degree slowly.

Slow speed down for exit hole.

Angle drill to vertical position 90 degree once round trace made

WHAT TO AVOID

- Never cut the tile without using water
- Never cut the tiles without laying on sand carpet
- Never cut the tiles in fast speed.

CERA

Trusted by all.
Made by CERA.

CERA Stylefix
Construction Chemicals

CERA

Powerful fixing needs powerful adhesive.

CERA Stylefix UNIFIX TA04

TA04 is a hi-tech single part adhesive, specifically to counter conditions such as external pressures on cladding tiles of the skyscrapers and large format tiles with overlaying on existing floors.

Features

- High polymer adhesive
- Highly flexible
- For internal & external floor & wall
- Slip resistance
- Extended open time
- For vibration area
