About CERA:

Cera Sanitaryware Limited is the pioneer and innovator in premium and stylish home solution products.

Established in 1980, its manufacturing plant is located in Kadi, Gujarat. The state-of-the-art plant is equipped with the latest technology for the production of Sanitaryware such as 3D printing, robotic glazing and pressure casting.

Its faucet manufacturing plant, adjoining to its Sanitaryware plant, has the most advanced technology—like 3D printing, peeling machines, high and low pressure die casting machines, robotic grinding machines and automatic chrome plating units.

CERA offers a comprehensive range of tiles across all segments, from large-format digitally printed slabs (available in sizes like 1200x1800mm, 800x2400mm, and 800x1600mm) to smaller wall and floor tiles. The collection includes glazed vitrified tiles, ceramic tiles, full body vitrified tiles, and double charge tiles, catering to diverse applications in both residential and commercial spaces. With a wide array of choices in design, texture, and finish, CERA ensures style and durability for every space.

To complete the home solutions product range and to leverage its strong equity of the brand, apart from sanitaryware, faucets and tiles, CERA has a wide range of products in wellness (Air & Water Massage bathtubs, Free standing bathtubs, shower panels, customized shower partitions, etc.), and kitchen sinks.
