The image shows a sophisticated bathroom setting. On the right, a large, white, freestanding bathtub is positioned against a dark, textured wall. To the left of the tub, there are two potted plants: a green leafy plant in a white rectangular pot and a taller plant with round, dried flower heads in a white rounded pot. Two pendant lights with geometric shades hang from the ceiling. The floor is made of dark, speckled tiles with a light-colored rectangular rug under the tub. The overall atmosphere is calm and luxurious.

FOR A TOUCH-FREE FLUSH EXPERIENCE

A simple hand wave  
activates the reduced  
flush.

A longer motion  
activates the full flush.

We've always believed here that innovation is never an end-goal to work towards. Rather, it's an everyday journey of raising the standards of our products to new levels. Innovation is hard work, but the result of what it leads to, is worth it every time. Our Vibe-Sense technology for EWCs is just one example for building the future of bathroom experiences, one step at a time. We innovate because of you and your experience shapes our next steps. Innovation is a two-way street for us, a path we love walking with you.

It's more than just about comfort or rest from the grind. It's a journey, an inward one. For a feeling so personal, should the experience not be personal too? It's luxurious, sleek, sophisticated, and most importantly, it feels personal, so that at the end of the day, you can unwind, your way.
